Pesticide Poisoning Case in St John, US Virgin Islands: We continue to work on this serious situation, with OSC's and other staff on the ground in St. John and in collaboration with the authorities in the US Virgin Islands. I briefed the Governor and the new acting commissioner on the situation earlier in the week. Family of four from Delaware were on vacation in a condo complex in St. John. The apartment below them was treated with Methyl Bromide by Terminex and it is possible the product moved up a floor into the apartment they were staying in. EPA banned the use of methyl bromide for indoor applications ten years ago. Three of the family
